

**Hope Experience El Salvador
Advance Report**

III. Travel Trips

Travel Meds: Please consult your health care provider for appropriate travel medications and required vaccinations. According to the CDC, there is risk of Dengue in El Salvador. To take precautions against mosquito bites, insect repellent with 35% DEET for skin and Permethrin for clothing is effective.

Passport: Please make sure you have your current passport available when applying for your visa. Your visa will be purchased in-country once you arrive. **Please bring color copies of your passport with you. 1 for your carry-on, 1 for your checked luggage, and 1 for the hotel.**

Dress: The current weather is hot! Current temperatures average around 85 during the day and 65 in the evenings. Please dress in lightweight clothing. Casual attire is fine. Short sleeve shirts or polos, and jeans or lightweight long pants are recommended. No shorts please. This will help prevent bug bites. A hat, a light jacket because the evenings can be chilly, and comfortable closed-toe walking shoes, that you don't mind getting muddy, are imperative. The sun is very strong, so sunscreen is also important.
